

Douglas Alexander Hedman Garcia

Software Engineer | Full-Stack Development | QA Automation

douglashedman@yahoo.es | +504 8904-1949 | Tegucigalpa, Honduras

douglashedman.vercel.app | github.com/PickleRickHND | linkedin.com/in/douglashedman/

PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience in full-stack development, QA automation, and mobile apps. Shipped 6+ production Next.js web apps, a Flutter mobile app, and maintained 300+ automated tests with Cypress and Playwright for e-commerce platforms. Integrates AI tools (Claude Code, Gemini, Cursor) into development workflows. Remote experience with US-based companies. Immediate availability.

EDUCATION

Universidad José Cecilio del Valle

Computer Systems Engineering

Tegucigalpa, Honduras | September 2017 - May 2024

Codecademy

Full-Stack Engineering + Computer Science Certifications

United States (Online) | August 2023 - December 2025

PROFESSIONAL EXPERIENCE

Systems Engineer | QA Automation | Full-Stack Development

Decorilla Interior Designs, USA, Remote

August 2022 - Present

- Development and maintenance of 300+ automated tests with Cypress and Playwright for regression and E2E testing.
- AI tools integration (Claude Code, Gemini, Cursor) for test case generation and development workflow automation.
- Full-stack development with JavaScript (jQuery, RequireJS) and PHP/Yii, SQL query optimization, and RESTful API implementation.

Technology Manager & Web Developer (Volunteer)

El Arca Honduras, Tegucigalpa, Honduras

December 2023 - Present

- Managing all technology operations for the organization including IT support, systems, and digital tools.
- Built institutional website with Next.js, TypeScript, and multi-language support (ES/EN/FR/PT/DE).

INDEPENDENT PROJECTS

Prizio - Price Comparison App

2025 - Present

Cross-platform mobile app comparing prices across 6 supermarket chains in Honduras (La Colonia, Walmart, Mas x Menos, Paiz, Diprova, PriceSmart).

- Flutter + Firebase + Python/FastAPI. Barcode scanning (ML Kit), price trends, smart lists, and push notifications.
- Automated scraping pipeline for 6 stores, Firestore schema design, and GCP cloud infrastructure.

PrintShop 504 - E-Commerce Platform

2024 - 2026

Full e-commerce platform for a sublimation business (custom t-shirts, bags, mugs) in Honduras.

- Next.js + TypeScript + Supabase + React-PDF + Zustand + Resend. Public storefront with catalog, cart, and checkout.
- Admin dashboard with RBAC, PDF invoicing, inventory management, supplier tracking, Excel reports, and activity logs.

Interactive 3D web atlas of the equine digestive system, built as an educational tool for veterinary students.

- Next.js + React Three Fiber + Three.js + Drei. Interactive 3D model with 7 selectable organs, animated digestive flow, and full camera controls.
- 3D model adapted and rigged in Blender with Python scripts; bilingual (ES/EN) anatomical data and responsive viewer.

Complete pharmacy management system with inventory, billing, and user administration.

- Laravel REST API + Angular SPA + MySQL. Secure authentication with Sanctum, stock and expiry alerts, register management, and PDF billing.
- Role-based access with Spatie Permissions, detailed operational reports, and automated tests with Pest and Playwright.

React SPA connected to the current Spotify Web API through Authorization Code with PKCE to search tracks, build playlists, and save them to the user account.

- React + Vite + Spotify Web API + OAuth PKCE + Axios. Real-time search, artist exploration, and mood-based discovery using API-compatible heuristics.
- Refreshes sessions without a client secret and exports playlists through rate-limit-aware batched track insertion.

TECHNICAL SKILLS

Software Development

- JavaScript/TypeScript
- React.js / Next.js
- Angular
- Three.js / R3F
- PHP (Laravel / Yii)
- Livewire / Filament
- Flutter/Dart
- Python
- Node.js
- Tailwind CSS
- REST APIs

Testing & QA

- Cypress
- Playwright
- Vitest
- Pest
- Jest
- Flutter Test
- E2E & Regression Testing

Databases & Cloud

- MySQL
- PostgreSQL
- Firebase Firestore
- Supabase
- Redis
- Google Cloud Platform
- Vercel

AI, Tooling & Observability

- Claude Code / Gemini / Cursor
- Sentry
- Git/GitHub
- Technical documentation
